

VORTEX AMBALAJ

SPEC SHEET

EVA

High impact absorption, flexibility and precision die-cutting.

EVA

High impact absorption, flexibility and precision die-cutting.

VORTEX EVA solutions come as sheets, self-adhesive sheets and tapes. With high impact absorption, flexibility and durability, they are trusted for case interiors, custom-cut separators, product handling and many industrial applications. Precision die-cut to your product, with options for density, hardness, colour and thickness.

SCOPE

- + EVA sheet
- + Self-adhesive EVA sheet
- + EVA tape
- + Precision die-cutting & custom separators

APPLICATIONS

- + Case interiors
- + Custom-cut separators
- + Product handling
- + Automotive & electronics
- + Machinery

TECHNICAL DATA

FORMS

Sheet, adhesive sheet, tape

OPTIONS

EVA · PRODUCT FORMS

Self-Adhesive EVA

Self-adhesive EVA sheets are practical protection solutions that apply easily to different surfaces thanks to their strong adhesive backing. They deliver high performance in impact absorption, vibration insulation, sealing and surface protection. Produced in various thicknesses and sizes to suit the need.

- Strong adhesive surface
- Easy, fast application
- Impact & vibration absorbing
- Water & moisture resistant
- Various thickness options
- Made-to-measure production

SELF-ADHESIVE EVA

Self-Adhesive EVA Sheet

VORTEX self-adhesive EVA sheets enable fast, secure application thanks to their strong adhesive backing. Effective in applications requiring impact absorption, vibration damping, sound insulation and surface protection.

VORTEX

ARKASI BANTLI EVA

Arkası bantlı EVA levhalar, kolay uygulama ve güçlü yapışma özelliği ile darbe emme, titreşim önleme ve yüzey koruma uygulamalarında hızlı ve etkili çözümler sunar.

- GÜÇLÜ YAPIŞMA**
Güvenli ve kalıcı uygulama sağlar.
- DARBE VE TİTREŞİM KORUMASI**
Darbe emici yapıyla maksimum koruma sağlar.
- ZAMAN KAZANIMI**
Kolay uygulama ile iş gücü ve zamandan tasarruf sağlar.
- KOLAY KESİM**
İstenilen ölçü ve şekilde kolayca kesilebilir.
- GENİŞ KULLANIM ALANI**
Endüstriyel, otomotiv, elektronik ve daha birçok alanda kullanıma uygundur.

ÖZEL ÖLÇÜ VE KALINLIK SEÇENEKLERİ
İhtiyaçınıza uygun ölçü, kalınlık ve yoğunluk seçenekleriyle projenize özel çözümler sunuyoruz.

RENK SEÇENEKLERİ

- ANTRASİT
- GRI
- BEYAZ

KEY FEATURES

- Strong adhesive backing
- High impact and vibration damping
- Easy application, fast installation
- Flexible, durable structure
- Easy to cut and shape
- Moisture resistant
- Project-specific size and thickness options
- Suitable for industrial use

EVA · PRODUCT FORMS

EVA Tape

EVA tape is a single- or double-sided adhesive foam tape delivering strong bonding, impact absorption and vibration insulation. It is used with confidence for gap filling, sealing and surface protection in automotive, electronics, furniture and industrial applications. Custom-produced in various thicknesses, widths and lengths.

- Strong bonding performance
- Impact & vibration absorbing
- Water & moisture resistant
- Easy to apply
- Produced in various sizes
- Suitable for industrial use

EVA · PRODUCT FORMS

EVA Sheet

EVA sheet is a closed-cell foam material preferred in industrial protective packaging thanks to its high impact absorption, flexible structure and long-lasting performance. It safely protects products against impact, scratching and vibration in electronics, automotive, medical, machinery and custom handling applications. Produced in various thicknesses, densities and sizes.

- High impact absorbing structure
- Light & flexible material
- Water & moisture resistant
- Closed-cell foam structure
- Easy to process
- Various thickness & density options
- Made-to-order production

EVA SHEET

EVA Sheet

VORTEX EVA sheets are developed for industrial protection and packaging with high impact absorption, flexibility and durability. Light and easy to process – trusted in product handling, custom-cut separators, case interiors and machinery applications.

VORTEX

EVA LEVHA

Hafif, esnek ve dayanıklı
EVA levhalar ile projelerinize
koruma ve değer katıyoruz.

HAFİF Kolay taşıma	DAYANIKLI Uzun ömürlü kullanım	DARBE EMİCİ Üstün koruma sağlar	NEME DAYANIKLI Suya ve kimyasallara karşı dirençli	KOLAY İŞLENİR Kesim, şekillendirme ve yapıştırma kolaylığı

EVA · PRODUCT FORMS

EVA Separator

Die-cut EVA is a protective foam solution precisely produced with custom dies to match the size and form of your product. It provides high protection for the safe transport and storage of electronic devices, tool cases, medical equipment, automotive parts and industrial products. Produced with project-specific size, shape and density options.

- Precision die-cutting
- Perfectly product-fitted design
- High impact protection
- Scratch & vibration protection
- Various thickness & density options
- Suitable for series production
- Made-to-order production

EVA · PRODUCT FORMS

EVA Roll

EVA roll is a flexible, durable closed-cell foam material produced for large-surface applications. It is widely preferred in impact absorption, surface protection, insulation and packaging applications. Available in various thicknesses, widths and densities to suit industrial needs.

- Flexible, durable structure
- High impact absorption
- Water & moisture resistant
- Aids heat & sound insulation
- Various thickness & width options
- Easy to process
- Suitable for industrial use

EVA · PRODUCT FORMS

Colored EVA

Colored EVA sheets are produced for applications that require an aesthetic appearance alongside protective properties. With various colour, thickness and density options, they can be used with confidence in electronics, packaging, education, promotional and industrial projects. Made-to-measure production available.

- Various colour options
- Light & flexible structure
- High impact absorption
- Water & moisture resistant
- Easy to process
- Various thickness & density options
- Made-to-order production

EVA · PRODUCT FORMS

High-Density EVA

High-density EVA sheets are developed for heavy-duty applications with a harder, more durable structure than standard EVA products. Offering high resistance to impact, pressure and abrasion, they provide a reliable solution for protecting industrial equipment, carrying cases, machine parts and sensitive products.

- High density & strength
- Superior impact & pressure resistance
- Long-lasting use
- Low deformation
- Water & moisture resistant
- Various thickness options
- Suitable for industrial applications
