SPEC SHEET

Cardboard Box

Corrugated boxes in standard and custom sizes.

Cardboard Box

Corrugated boxes in standard and custom sizes.

VORTEX box solutions are produced from single- and double-wall corrugated board, sized to your product's dimensions and weight. They protect your goods against impact and compression in shipping, storage and e-commerce. Available in standard sizes as well as custom dimensions, printed (logo/warnings) and different board weights.

SCOPE

- + Single & double-wall board
- + Standard & custom size
- + Logo & print option
- + Shipping-grade strength

APPLICATIONS

- + E-commerce shipments
- + Shipping & storage
- + Product packaging
- + Moving & archive

TECHNICAL DATA

MATERIAL

Corrugated board

STRUCTURE

Single / double wall

PRINTING

Logo & warning print

PRODUCTION

Standard & custom size

CARDBOARD BOX · PRODUCT FORMS

Shipping & E-Commerce Box

The shipping and e-commerce box is a durable, practical package optimised for carrying single orders door to door. Prepared quickly thanks to easy-closing flaps and a taping channel, it protects contents against crushing and opening across a repeatedly handled courier network. Chosen to match the product's volume, it lowers both the need for filler and volumetric shipping costs.

- Door-to-door durability
- Fast-closing flaps
- Handling-resistant
- Volumetric optimisation
- Reduces filler need
- Suited to e-commerce dispatch

CARDBOARD BOX · PRODUCT FORMS

Single-Wall Box

A single-wall box is a standard corrugated carton made by gluing one fluted layer between two flat liners. For light and medium-weight goods, shallow stacks and short dwell times it is the most economical choice.

- Economical for light and medium loads
- Low tare, volumetric advantage
- Flat surface suited to print
- Fine, medium and coarse flutes
- Made to internal dimensions
- Fast supply, standard sizes

CARDBOARD BOX · PRODUCT FORMS

Double-Wall Box

A double-wall box is made from corrugated board with two fluted layers glued between three flat liners. It takes over where single-wall stops: heavy goods, multi-layer palletised stacks, long routes and humid conditions.

- Withstands multi-layer stacking
- High puncture and tear resistance
- Heavy and fragile products
- Export and sea freight
- Moisture-resistant paper option
- Made to internal dimensions

Regular Slotted Carton (RSC)

The regular slotted carton is the standard corrugated box whose top and bottom flaps meet in the middle. Cut from a single blank with minimal waste, it is the most economical box style and the most widely used form in shipping.

- The most common standard box form
- Produced with minimal waste
- Fast-closing flaps
- Taped or stitched closure
- Broad surface suited to print
- Internal dimensions made to product

Lidded & Archive Boxes

A lidded box is a corrugated carton whose body and lid are made as separate pieces. Because it opens and closes repeatedly without cutting tape, and doubles the wall where the lid overlaps, it suits archiving, storage and presentation.

- Separate lid, no tape needed
- Opens and closes repeatedly
- Double wall at the top edge
- Made to shelf dimensions
- Hand-hole option
- Label and print area

CARDBOARD BOX · PRODUCT FORMS

Heavy-Duty Box

A heavy-duty box is a reinforced corrugated carton for heavy goods travelling palletised, over long distances and stacked several layers high. Double or triple wall, corner supports and moisture-resistant papers are specified to suit the project.

- Palletised, multi-layer stacking
- Heavy and bulky products
- Reinforced with corner posts
- Moisture-resistant paper option
- Export and sea freight
- Bespoke size and fitted insert
